North American Enclosures™

ARCHITECTURAL SCREENING SOLUTIONS

CURB MOUNTED SCREEN SYSTEM

HORIZONTAL RIB PERFORATED PANEL SHOWN

STATEMENT

When zoning codes or design guidelines require the concealment of rooftop equipment, our Curb Mounted Screen System provides an integrated, streamlined solution. The system mounts directly to our custom clip-lock curb, making it an ideal choice for screening equipment such as exhaust fans & condensing units. Integrated sliding panels allow convenient access for equipment service and maintenance, & the system is suitable for both new construction and retrofit applications.
